Currency:	HUF
Total Net Asset Value of the Fund:	1,893,218,099 HUF
Net Asset Value per unit:	1.042193 HUF

INVESTMENT POLICY OF THE FUND:

We launched the AEGON Asia Equity Fund of Funds so that our customers could profit from the Asian growth. The persistent profit growth of Asian companies, the regions richness in liquidity and the appreciation of the Asian currencies are the key to the strong economic growth of the region, a growth that will probably be much higher in the years to come than the European or American one. According to our opinion the long-term structural development secures the sustainable above-average growth. Dissimilar to the previous economic cycles, the region is less vulnerable because of its big foreign-exchange holdings and low indebtedness. The developing internal demand and high liquidity could compensate a potential slowdown in the American economy. Most of the Asian equities offer high dividend yields and the valuation level of the companies is low compared with other regions. Certainly it is important to invest in such markets that have adequate valuation levels. Our investment decisions are supported by a special investment-planning model, which builds on all the important macro economical indicators and the companies' evaluation indicators. 75% MSCI AC Far East ex Japan + 15% MSCI India + 5% MSCI Japan + 5% ZMAX Index is the composite benchmark index of the Fund. The Fund's main goal is to overperform its benchmark by a minimum of 2%.

MARKET SUMMARY:

Global conditions did not deteriorate further in December, though a significant degree of anxiety remains concerning growth and the sustainability of debt in much of the developed world. This sustained negative sentiment was reflected in stubbornly wide spreads on risky assets, range trading in equities and a weakening of the euro against the US dollar in December. Credit and cash spreads remain wide and issuance activity is dead despite generally healthy corporate balance sheets as global macro woes overshadow the market.

In December, equities in Japan and Hong-Kong were the outperformers in Asia increasing by 8.3% and 8.5% in HUF terms, respectively. While the laggard market was domestic China again declining by 2% in HUF terms, despite the coming turnaround in Chinese monetary policy, where more easing expected after the first reserve ratio cut.

ASSET ALLOCATION OF THE FUND ON 12/31/2011
